## **Introduction**

This European Standard is based on CE.T.I.E. (International Technical Centre for Bottling and Packaging) data sheet GME 30.27 (2010) [1].

Efficient packaging is of great importance for the distribution and the protection of goods. Insufficient or inappropriate packaging can lead to damage or wastage of the contents of the pack.

## 1 Scope

This European Standard specifies the design and dimensions of the screw PET finish BVS 30H60 for the closure of wines with CO<sub>2</sub> content below 1,2 grams per litre.

This finish is designed to take an aluminium tamper-evident closure with extended skirt which is reformed during application or a screw plastic closure (with or without metallic shell).
