European foreword

This document (EN 16747:2015) has been prepared by Technical Committee CEN/TC 417 “Project Committee - Maritime and port security services”, the secretariat of which is held by ASI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by March 2016, and conflicting national standards shall be withdrawn at the latest by March 2016.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

According to the CEN-CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

1 Scope

This European Standard is a service standard that specifies requirements for quality in organization, processes, staff and management of a security services provider and/or its independent branches and establishments under commercial law and trade as a provider with regard to port and maritime security services.

This European Standard applies according to the laws and the regulations applicable in the territory of every national CEN member adopting the standard.

This European Standard does not apply to security services provided by private security companies that are subject to particular rules and conditions and/or related to a specific high-risk situation and/or the use of heavy weapons and/or special training and/or government supervision, such as security services in relation to piracy. In case such particular rules and/or conditions do not exist at national level, this European Standard can apply.

This European Standard lays down quality criteria for the delivery of security services in and to ports and in relation to maritime activities, requested and contracted upon by public and private clients or buyers. This European Standard is therefore suitable for the selection, attribution, awarding and reviewing of the most suitable provider for port and maritime security services.
