European foreword

This document (EN 50229:2015) has been prepared by CLC/TC 59X "Performance of household and similar electrical appliances".

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2016-06-30
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2018-06-30

This document supersedes EN 50229:2007.

The major technical modifications compared to EN 50229:2007 are:

- a) The structure has been revised to assure a better readability.
- b) All references concerning EN 60456:2011 and EN 61121:2013 have been updated.
- c) Precise instruction to determine the load capacity for drying.
- d) Precise instruction of composition of partial loads – Splitting the base load.
- e) Revision of 'Test report – data to be reported' tables.

Introduction of method for additional drying. Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association.

1 Scope

This European Standard specifies the test methods that has to be applied in accordance with the Commission Directive 96/60/EC of 19 September 1996 implementing Council Directive 92/75/EEC with regard to energy labelling of household combined washer-driers.

It deals with

- performance criteria for the **complete operation cycle** of a 60 °C cotton wash programme as specified in EN 60456:2011 and a **drying cycle** based on the “Dry cotton programme” as specified in EN 61121:2013,
- tolerances for the verification procedure.

This European Standard is concerned neither with safety nor with performance requirements.

NOTE **Washer-dryers** for communal use in blocks of flats or in laundrettes are within the scope of this standard, but machines for commercial laundries are not included.
