## European foreword

This document (CLC/TS 50625-3-5:2017) has been prepared by CLC/TC 111X "Environment".

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under mandate M/518 given to CENELEC by the European Commission and the European Free Trade Association.

This document is to be used in conjunction with CLC/TS 50625-3-1:2015.

CLC/TS 50625-3-5 supplements or modifies the corresponding clauses in CLC/TS 50625-3-1:2015, so as to convert that publication into the Technical Specification: Treatment specification for photovoltaic panels.

When a particular subclause of part 3-1 is not mentioned in this part 3-5, that subclause applies as far as is reasonable. When this standard states "addition", "modification" or "replacement", the relevant text in part 3-1 is to be adapted accordingly.

NOTE The following numbering system is used:

- Subclauses, tables and figures that are numbered starting from 101 are additional to those in Part 1;
- unless notes are in a new subclause or involve notes in Part 1, they are numbered starting from 101, including those in a replaced clause or subclause;
- additional annexes are lettered AA, BB, etc.

**CLC/TS 50625-3-5:2017 (E)****Introduction**

In order to support EN 50625-2-4, Collection, logistics and Treatment requirements for WEEE - Part 2: Treatment requirements for photovoltaic panels, covering treatment of WEEE and thereby fulfil the requirement of the European Commission's Mandate M/518 it is necessary to include normative requirements, such as target values and limit values for the analysis, into a document that is able to be revised to take into account both practical experience and changes in treatment technologies.

## 1 Scope

*Clause 1 is replaced with the following:*

This European Technical Specification is intended to be used in conjunction with the WEEE Treatment Standard for photovoltaic panels, EN 50625-2-4 and Technical Specification for de-pollution – General CLC/TS 50625-3-1:2015.
