Slurry surfacing - Test methods - Part 1: Sampling of slurry surfacing mixture

Táto norma obsahuje anglickú verziu európskej normy.  
This standard includes the English version of the European Standard.

Táto norma bola oznámená vo Vestníku ÚNMS SR č. 08/18

Obsahuje: EN 12274-1:2018

Oznámením tejto normy sa ruší  
STN EN 12274-1 (73 6164) zo septembra 2003

Prüfverfahren - Teil 1: Probenahme

This European Standard was approved by CEN on 13 November 2017.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

## European foreword

This document (EN 12274-1:2018) has been prepared by Technical Committee CEN/TC 227 “Road materials”, the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 2018, and conflicting national standards shall be withdrawn at the latest by September 2018.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 12274 1:2003.

Compared with EN 12274 1:2003, the following changes have been made:

- a) the position of when to take a sample from production has been defined;
- b) an informative annex has been added to evaluate sampling after laying.

This European Standard is one of a series of standards as listed below:

- EN 12274-1, Slurry surfacing – Test methods – Part 1: Sampling of slurry surfacing mixture
- EN 12274-2, Slurry surfacing – Test methods – Part 2: Determination of residual binder content including preparation of samples
- EN 12274-3, Slurry surfacing – Test methods – Part 3: Consistency
- EN 12274-4, Slurry surfacing – Test methods – Part 4: Determination of cohesion of the mix
- EN 12274-5, Slurry surfacing – Test methods – Part 5: Determination of the minimum binder content and wearing resistance
- EN 12274-6, Slurry surfacing – Test methods – Part 6: Rate of application
- EN 12274-7, Slurry surfacing – Test methods – Part 7: Shaking abrasion test
- EN 12274-8, Slurry surfacing – Test methods – Part 8: Visual assessment of defects

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

**EN 12274-1:2018 (E)****1 Scope**

This European Standard applies to slurry surfacing for roads, airfields and other trafficked areas.

This European Standard specifies a method for sampling of slurry surfacing mixtures from production during laying.

A method for sampling from the road surface after laying is described in an informative annex (Annex A) for evaluation purposes.

Production testing needs operators with good practice and is carried out provided there are no specific local or other national regulations that are required to be followed.

**WARNING - The use of this standard may involve hazardous materials, operations and equipment. This standard does not purport to address all of the safety problems associated with its use. It is the responsibility of the user of the standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.**
