## **European foreword**

This document (CEN/TR 17292:2018) has been prepared by Technical Committee CEN/TC 207 "Furniture", the secretariat of which is held by UNI.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

**CEN/TR 17292:2018 (E)**

## 1 Scope

This document specifies repeatability standard deviation and reproducibility standard deviation for results obtained from test methods carried out according to the following standards:

- EN 12720:2009+A1:2013, *Furniture — Assessment of surface resistance to cold liquids*,
- EN 12721:2009+A1:2013, *Furniture — Assessment of surface resistance to wet heat*,
- EN 12722:2009+A1:2013, *Furniture — Assessment of surface resistance to dry heat*,
- EN 15185:2011, *Furniture — Assessment of the surface resistance to abrasion*,
- EN 15186:2012, *Furniture — Assessment of the surface resistance to scratching*,

in order to provide the accuracy of results.

The above standards deal with all rigid furniture surfaces regardless of materials and they do not apply to leather and textile surfaces.

## 2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
