

STN	Olovené štartovacie batérie Časť 4: Rozmery batérií pre t'ažké vozidlá	STN EN 50342-4
		36 4310

Lead-acid starter batteries - Part 4: Dimensions of batteries for heavy vehicles

Táto norma obsahuje anglickú verziu európskej normy.
This standard includes the English version of the European Standard.

Táto norma bola označená vo Vestníku ÚNMS SR č. 05/21

Obsahuje: EN 50342-4:2020

Oznámením tejto normy sa od 26.10.2023 ruší

This European Standard was approved by CENELEC on 2020-10-26. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

European foreword

This document (EN 50342-4:2020) has been prepared by CLC/TC 21X "Secondary cells and batteries".

The following dates are fixed:

- latest date by which this document has (dop) 2021-10-26
to be implemented at national level by publication of an identical national standard or by endorsement
- latest date by which the national (dow) 2023-10-26
standards conflicting with this document have to be withdrawn

This document supersedes EN 50342-4:2009 and all of its amendments and corrigenda (if any).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

EN 50342-4:2020 (E)

1 Scope

This document is applicable to lead-acid batteries used for heavy vehicles.

The object of this document is to specify the European requirements of the main dimensions of starter batteries.

For new and future developments of the above applications, it is expected that only batteries from the "Preferred Types" series be used.

Batteries of the series of "Other Types" exist under several national standards. They have been transferred from the previous standard EN 60095-4.

The preferred types A, B and C are newly introduced and correspond closely to the types D4, D5 and D6 with some differences in tolerances and dimensions.

2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
