Gas detectors - Electrical apparatus for the detection of carbon monoxide in domestic premises - Part 1: Test methods and performance requirements

Táto norma obsahuje anglickú verziu európskej normy.
This standard includes the English version of the European Standard.

Táto norma bola oznámená vo Vestníku ÚNMS SR č. 05/21

Obsahuje: EN 50291-1:2018/AC Jan.:2021

132718

Corrigendum to EN 50291-1:2018

English version

In 5.14.2, replace the entire subclause with the following:

"The back-up power source shall be monitored by the apparatus for faults. These faults shall include low backup, open circuit and short circuit failure of the back-up (see 6.3.22)."

In 6.3.17.2, replace the entire subclause with the following:

"When exposed to test gas C in Table 4, the alarm shall operate according to the conditions in Table 5 for the power supply conditions in 6.3.17.1. Recovery from the alarm state shall take place within 6 min when exposed to clean air. The unit shall give a low battery warning as per 5.6.4."
