Private Sicherheitsvorkehrungen zum Schutz kritischer
Infrastrukturen - Teil 1: Allgemeine Anforderungen

This European Standard was approved by CEN on 23 May 2021.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

European foreword

This document (EN 17483-1:2021) has been prepared by Technical Committee CEN/TC 439 "Private security services", the secretariat of which is held by ASI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by December 2021, and conflicting national standards shall be withdrawn at the latest by December 2021.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

1 Scope

This document includes the main overarching requirements for the provision of private security services for critical infrastructure.

NOTE 1 This document is the first part of a series of standards on the provision of private security services for critical infrastructure. It will be complemented by other sector specific parts, which give more detailed requirements for related services such as aviation, maritime and port security.

NOTE 2 Examples of critical infrastructure sectors are given in Annex A.

NOTE 3 See Figure 1.

Figure 1 — Structure for sector-specific standards

NOTE 4 It is important that the selection of a private security service provider always represents the best balance between quality and price. This document sets out the minimum requirements that providers should comply with in order for this balance to be struck.

It specifies service requirements for quality in the organization, processes, personnel and management of a security service provider and/or its independent branches and establishments under commercial law and trade as a provider of security services.

It lays down quality criteria for the delivery of security services requested by public and private clients.

This document is suitable for the selection, attribution, awarding and reviewing of the most suitable provider of security services.

2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
