EN 17651:2022 (E)**Introduction**

Information about leather goods by means of descriptions, labels and markings can strengthen consumer protection whilst also protecting the leather industry. Standardized information is of mutual benefit for consumers and the leather industry, as it indicates the exact nature of the materials and components used.

This document has been designed as a reference document for the description, labelling and marking of leather in leather goods.

1 Scope

This document sets the requirements for the description, labelling and marking of leather in leather goods.

This document defines the information to be included on descriptions, labels and markings for leather goods intended for sale to the final consumer.

2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 15987, *Leather - Terminology - Key definitions for the leather trade*

EN ISO 17131, *Leather - Identification of leather with microscopy (ISO 17131)*
