EN 50525-1:2011/A1:2022 (E)**1 Modifications to the Contents**

Under chapter 7, below Clause 7.5, Add the following new clause:

“7.6 Reaction to Fire”

In the entry for Annex E, delete “... and its derivation from HD 21 and HD 22”

Below Annex E, add the following new title:

“Annex ZB (normative) Special National Conditions”

In Tables, delete:

“Table E.2 – Specific structure of EN 50525 and its derivation from HD 21 and HD 22”

“Table E.3 – Location of each part of HD 21 and HD 22”

And replace with “Table E.2 – References to previous standards HD 21 and HD 22”

2 Modifications to the Introduction

Delete the text and replace with:

“This document provides the general part of series EN 50525. The individual product standard parts in Annex-E are for equipment manufacturers, installers and end-users.

The use of these cable standards in a different way than that recommended by EN 50565-1 and EN 50565-2 could result in a lowering of safety and/or in a reduction of the expected life of the cable.

For the relationship with EU Directive (2014/35/EU) see informative Annex ZZ of the individual parts. This part contains only the general requirements. Each separate product standard part refers to this part.

In some countries local regulation(s) may define reaction of fire performances if the product is for permanent installation in works. Performance requirements are those given in EN 50575 for relevant properties.”

3 Modifications to the Scope

In the second line, delete “a.c.” and replace it with “AC”

In NOTE 2, delete “(a.c.)” and “(d.c.)”.

4 Modifications to Clause 2, “Normative references”

Delete the following references:

“

EN 50267-2-1, Common test methods for cables under fire conditions – Tests on gases evolved during combustion of materials from cables – Part 2-1: Procedures – Determination of the amount of halogen acid gas

EN 50267-2-2, Common test methods for cables under fire conditions – Tests on gases evolved during combustion of materials from cables – Part 2-2: Procedures – Determination of degree of acidity of gases for materials by measuring pH and conductivity

HD 516, Guide to use of low voltage harmonized cables

”

And replace with the following references:

“

EN 50565-1, *Electric cables - Guide to use for cables with a rated voltage not exceeding 450/750 V (U0/U) - Part 1: General guidance*

EN 50565-2, *Electric cables - Guide to use for cables with a rated voltage not exceeding 450/750 V (U0/U) - Part 2: Specific guidance related to EN 50525 cable types*

EN 50575, *Power, control and communication cables - Cables for general applications in construction works subject to reaction to fire requirements*
