European foreword

This document (EN 1888-3:2024) has been prepared by Technical Committee CEN/TC 252 “Child care articles”, the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 2025, and conflicting national standards shall be withdrawn at the latest by January 2025.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

Any feedback and questions on this document should be directed to the users’ national standards body. A complete listing of these bodies can be found on the CEN website.

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

EN 1888-3:2024 (E)**Introduction**

In November 2014 the European Working Group CEN/TC 252/WG 3 decided to split EN 1888 into different parts to clearly treat in a different way, new products or new functions of *wheeled child conveyances*.

This document covers *pushchairs* intended for sport activities and is only applicable in conjunction with EN 1888-1:2018+A1:2022, which states general requirements for *pushchairs* and *prams*; and if applicable, with EN 1888-2:2018+A1:2022, which states requirements for *pushchairs* intended for children up to 22 kg.

Compliance with EN 1888-1:2018+A1:2022 is mandatory to comply with this document.

If the *pushchair* is intended for children up to 22 kg, compliance with EN 1888-2:2018+A1:2022 is mandatory to comply with this document.

1 Scope

This document specifies the safety requirements of *pushchairs* when used for running/jogging or skating (excluding ice skating), intended for the transport of one or two children up to 15 or 22 kg each.

Pushchairs intended to transport the carer while pushing (e.g. the combination of longboard and stroller) are excluded from the scope of this document.

This document applies in conjunction with and in addition to the European standards EN 1888-1:2018+A1:2022 or EN 1888-2:2018+A1:2022 and it cannot be used separately.

If the product has several functions or can be converted into another function, the relevant European standards apply to it.

2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
