

<b>STN</b>	<b>Textilné podlahové krytiny Hodnotenie impregnácií vo vpichovaných podlahových krytinách pomocou skúšky špinivosti</b>	<b>STN EN 1269</b>  80 4425
------------	--	---------------------------------------

Textile floor coverings - Assessment of impregnations in needled floor coverings by means of a soiling test

Táto norma obsahuje anglickú verziu európskej normy.  
This standard includes the English version of the European Standard.

Táto norma bola oznámená vo Vestníku ÚNMS SR č. 01/25

Obsahuje: EN 1269:2024

Oznámením tejto normy sa ruší  
STN EN 1269 (80 4425) z marca 2020

NORME EUROPÉENNE

EUROPÄISCHE NORM

October 2024

ICS 97.150

Supersedes EN 1269:2019

English Version

## Textile floor coverings - Assessment of impregnations in needed floor coverings by means of a soiling test

Revêtements de sol textiles - Évaluation de  
l'imprégnation des revêtements de sol aiguilletés au  
moyen d'un essai d'encrassement

Textile Bodenbeläge - Beurteilung von  
Imprägnierungen in Nadelvlies-Bodenbelägen durch  
eine Anschmutzprüfung

This European Standard was approved by CEN on 23 September 2024.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

## European foreword

This document (EN 1269:2024) has been prepared by Technical Committee CEN/TC 134 “Resilient, textile, laminate and modular mechanical locked floor coverings”, the secretariat of which is held by NBN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by April 2025, and conflicting national standards shall be withdrawn at the latest by April 2025.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 1269:2019.

EN 1269:2024 includes the following significant technical changes with respect to EN 1269:2019:

- method B was taken out because the Tetrapod standards ISO/TR 6131 and ASTM D5251-05 are withdrawn);
- two soils (CEN and ASTM soil) are replaced by one soil (having slight change of composition and colourimetric tolerance of former CEN soil) enabling the results to be comparable.

**WARNING** These changes could lead to different results compared to the results obtained with the former version.

Any feedback and questions on this document should be directed to the users’ national standards body. A complete listing of these bodies can be found on the CEN website.

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

## 1 Scope

This document specifies a method for the evaluation of impregnations or other treatments in needed floor coverings by means of a soiling test.

## 2 Normative references

The following documents are referred to in the text in such a way that some or all their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
