English Version

**Maintenance management and functions**

Management de la maintenance et fonctions

Instandhaltungsmanagement und -funktionen

This European Standard was approved by CEN on 30 September 2024.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

## **European foreword**

This document (EN 17948:2024) has been prepared by Technical Committee CEN/TC 319 “Maintenance”, the secretariat of which is held by UNI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by May 2025, and conflicting national standards shall be withdrawn at the latest by May 2025.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

Any feedback and questions on this document should be directed to the users’ national standards body. A complete listing of these bodies can be found on the CEN website.

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

**EN 17948:2024 (E)****Introduction**

This document is part of a set of maintenance standards produced by CEN/TC 319 where it holds a central place because it introduces maintenance, its organization and management and establishes close links with the other standards of CEN/TC 319. Annex A presents the framework and an overview of the available CEN/TC 319 maintenance standards divided into four groups: Common basis, Management, Methodologies, and Resources. This document belongs to the Management group.

Maintenance is a set of activities that requires effective management able to anticipate, react quickly to events, and adapt to business changes. It has an essential role in controlling plant safety and occupational and environmental risks as well as ensuring the competitiveness and the durability of organisations and companies.

Therefore, the importance of effective maintenance management is major, and this document gives guidelines for maintenance managers to develop a process contributing to the success factors defined by the managing board. It is based on the existing European standards, and particularly those which describe the role of maintenance within asset management, the maintenance processes and their inter-relationships, the maintenance of buildings and infrastructures, maintenance key performance indicators, maintenance support processes such as documentation, contracts, qualification of maintenance personnel, etc.

This document is intended to help maintenance managers develop the maintenance management process in its various aspects (maintenance policy, maintenance objectives, maintenance strategy, internal/outsourced activities, organization of functions, job profiles and responsibilities, budgets, supervision of maintenance activities, communication, and continuous improvement).

Annex A presents a summary of other standards for maintenance which have been prepared by CEN/TC 319

Annex B describes examples of levels of maintenance.

## **1 Scope**

This document specifies the main content of maintenance management and the main activities for which maintenance management is responsible.

This document is applicable to maintenance managers and asset managers in the industry sector and for infrastructure and buildings in order to achieve the success factors of the organization.

## **2 Normative references**

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
