Tumble dryers for household use - Methods for measuring the performance

Táto norma obsahuje anglickú verziu európskej normy.
This standard includes the English version of the European Standard.

Táto norma bola oznámená vo Vestníku ÚNMS SR č. 04/25

STN EN 61121 z októbra 2013 sa bez tejto zmeny A12 môže používať do 28. 2. 2026.

Obsahuje: EN 61121:2013/A12:2025

Oznámením tejto normy sa od 28.02.2026 ruší
STN EN 61121:2013/A11 (36 1071) z januára 2020

Messung der Gebrauchseigenschaften

This amendment A12 modifies the European Standard EN 61121:2013; it was approved by CENELEC on 2025-01-20. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

European foreword

This document (EN 61121:2013/A12:2025) has been prepared by CLC/TC 59X "Performance of household and similar electrical appliances".

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2026-02-28
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2026-02-28

This document supersedes the amendment EN 61121:2013/A11:2019 and corrigenda (if any).

This document is read in conjunction with EN 61121:2013.

EN 61121:2013/A12:2025 includes the following significant technical changes with respect to EN 61121:2013:

- a) the **programme** to be tested for the **combined test series** is the new introduced **eco programme**;
- b) the maximum time of the phase without pre-conditioning of the **tumble dryer** between two **test runs** is extended to 96 h;
- c) the requirement to adjust the water used to the pH-value is omitted;
- d) a loading procedure for the **tumble dryer** is introduced;
- e) addition of an alternative ambient air climate for **conditioning** the **test load**;
- f) the validity of a **test run** and the validity of a **test series** has been revised;
- g) the method to pre-age **test load** items for creation of a new **test load** is modified;
- h) the method to calculate a pooled standard deviation has been deleted;
- i) a calculation method for the average final moisture content has been added;
- j) specific weighting factors are introduced for the calculation of the weighted average value of the **combined test series**;
- k) Annex ZB Tolerances and control procedures is deleted and replaced by a new Annex ZB which defines the testing procedure for **multi-drum tumble dryers**;
- l) the procedure to measure low power modes is modified (see Annex ZD).

Annex ZA sets out the procedure to be applied for testing in accordance with Commission Regulations with regard to energy labelling and ecodesign and provides all necessary links to all relevant clauses of this European Standard.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a standardization request addressed to CENELEC by the European Commission. The Standing Committee of the EFTA States subsequently approves these requests for its Member States.

EN 61121:2013/A12:2025 (E)

For the relationship with EU Legislation, see informative Annexes ZZA and ZZB, which are an integral part of this document.

Any feedback and questions on this document should be directed to the users' national committee. A complete listing of these bodies can be found on the CENELEC website.

1 Modifications to Clause 2, “Normative references”

Add the following reference:

EN IEC 63474:2023, *Electrical and electronic household and office equipment - Measurement of networked standby power consumption of edge equipment (IEC 63474:2023)*

Replace the reference to EN 60704-2-6 with its dated reference:

EN 60704-2-6:2012¹, *Household and similar electrical appliances - Test code for the determination of airborne acoustical noise – Part 2-6: Particular requirements for tumble dryers (IEC 60704-2-6:2012)*

Delete the following references:

EN 60704-1, *Household and similar electrical appliances - Test code for the determination of airborne noise - Part 1: General requirements (IEC 60704-1)*

EN 60704-3, *Household and similar electrical appliances - Test code for the determination of airborne acoustical noise - Part 3: Procedure for determining and verifying declared noise emission values (IEC 60704-3)*

koniec náhľadu – text ďalej pokračuje v platenej verzii STN

¹ As amended by EN 60704-2-6:2012/A11:2025.
