Electrical equipment for measurement, control and laboratory use - EMC requirements - Part 1: General requirements

Táto norma obsahuje anglickú verziu európskej normy.
This standard includes the English version of the European Standard.

Táto norma bola oznámená vo Vestníku ÚNMS SR č. 06/26

STN EN IEC 61326-1 zo septembra 2021 sa bez tejto zmeny A11 môže používať do 30. 4. 2029.

Obsahuje: EN IEC 61326-1:2021/A11:2026

This amendment A11 modifies the European Standard EN IEC 61326-1:2021; it was approved by CENELEC on 2026-03-16. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

European foreword

This document (EN IEC 61326-1:2021/A11:2026) has been prepared by CLC/TC65X “Industrial-process measurement, control and automation”

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2027-04-30
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2029-04-30

This document modifies EN IEC 61326-1:2021.

EN IEC 61326:2021/A11:2026 includes the following significant technical changes with respect to EN IEC 61326-1:2021:

- update of immunity requirements;
- update of performance criterion;
- update of emission requirements.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

Any feedback and questions on this document should be directed to the users' national committee. A complete listing of these bodies can be found on the CENELEC website.

EN IEC 61326-1:2021/A11:2026 (E)**Introduction**

The purpose of this amendment is to identify and modify the requirements in order to provide potential guidance in fulfilling EMCD requirements.

1 Modification to Introduction

Replace the last paragraph with:

“This part of EN 61326 specifies the EMC requirements that are generally applicable to all equipment within its scope. For certain types of equipment, these requirements will be supplemented or modified by the special requirements of one, or more than one, particular part EN 61326-2 (all parts). EN 61326-2 (all parts) should be read in conjunction with the EN 61326-1 requirements.

NOTE This informative statement applies to any edition of these standards.”

2 Modification to Clause 1, “Scope”

Replace the first paragraph of Clause 1 with:

“This part of EN 61326 is a product family standard specifying requirements for immunity and emissions regarding electromagnetic compatibility (EMC) for electrical equipment, operating from a supply or battery of less than 1 000 V AC or 1 500 V DC or from the circuit being measured. Equipment intended for professional, industrial-process, industrial-manufacturing and educational use is covered by this part. It includes equipment and computing devices for

- measurement and test;
- control;
- LABORATORY use;
- accessories intended for use with the above (such as sample handling equipment),

intended to be used in industrial and non-industrial locations.”

3 Modification to Clause 2, “Normative references”

Replace CISPR 11:2015 and its amendments with:

EN IEC 55011:2025, *Industrial, scientific and medical equipment - Radio-frequency disturbance characteristics - Limits and methods of measurement*
